Monthly neutrality charges 2026

The neutrality charge can be positive (+) or negative (-). If the neutrality charge is positive, it means Gasgrid charges the balance responsible party. If the neutrality charge is negative, Gasgrid compensates the balance responsible party.

In the following table, the unit prices of neutrality charges are presented:

Month/Year	MWh exit total*	€/MWh
2026		
January	5 523 772	-0,28249
February	5 359 294	-0,15815
March	2 844 073	0,12327
April	2 206 503	-0,08311
May	2 852 521	-0,10410
June	1 762 249	0,07585
July	1 433 517	0,13803
August	1 804 246	0,07390
September	1 046 443	-0,12380
October	2 467 597	0,40910
November		
December		

Further information on neutrality charges and the calculation principle can be found here: Terms and Conditions of Balancing.

*'MWh exit total' includes the quantity of aggregated offtakes included during the Gas Month in the Balance Responsible Party's balancing portfolio (incl. Exit Zone, Virtual Trading Point and Balticconnector).
