|--|--------------------------------------|---------------------------|
| Terminal:                                      | Port:                                | LNG Carrier:              |
| <b><i>Floating LNG Terminal Finland Oy</i></b> | <b><i>Port of Inkoo, Finland</i></b> | <i>[name of the LNGC]</i> |

Dear Master of the LNG Carrier

Responsibility for the safe conduct of operations while your LNG Carrier is at this Terminal and this Port rests with you, as Master of the LNG Carrier. We wish, therefore, before operations start, to seek your full co-operation and understanding on the safety requirements set out in the Ship Shore Safety Checklist, which are based on safe practices that are widely accepted by the oil & gas and tanker industries.

We expect you, and all under your command, to adhere strictly to these requirements throughout your LNG Carrier's stay at this Terminal and Port.

Before the start of operations, and from time to time thereafter, for our mutual safety, an FSRU representative, and Port staff where appropriate together with responsible officers, may make a routine inspection of your LNG Carrier to ensure that elements addressed within the scope of the Ship Shore Safety Checklist are being managed in an acceptable manner. Where corrective action is needed, we may not agree to operations commencing or, should they have been started, we may require them to be stopped.

Similarly, if you consider that safety is being endangered by any action on the part of our staff or by any equipment under our control, you should demand immediate cessation of operations.

Please acknowledge receipt and acceptance of, and commitment to, this Safety Letter by countersigning and returning the attached copy.

The terms and conditions of the Conditions of Use undertaking shall apply to this letter in the relation between you and Floating LNG Terminal Finland Oy.
