1 Definitions

| Term | Meaning |
|--|---|
| AIB Communications Hub or “Hub” | A commercial website operated on behalf of the AIB whose address is https://www.aibhub.org , which provides coordination and synchronisation services, distributing messages and acknowledgements between the registries of Hub Users. The Hub is defined in detail in Subsidiary Document “HubCom EECS Registration Databases”, otherwise known as “HubCom”; |
| Association of Issuing Bodies or “AIB” | The international not-for-profit association (ivzw - aisbl) constituted in accordance with the Belgian Code of Companies and Associations of 23 March 2019, under the name of “Association of Issuing Bodies” with a company number 0.864.645.330; |
| Certificate | A certificate, record or guarantee (in any form including an electronic form) in relation to: (a) attributes of the Input consumed in the production of a quantity of Output, and/or (b) attributes of the method and quality of the production of a quantity of Output; |
| Certification Scheme | A legislative, administrative and/or contractual framework establishing a system of Certificates; |
| Competent Authority | In relation to the exercise or discharge of any legislative, governmental, regulatory or administrative function with respect to any Domain, the Authority duly authorised under the laws and regulations of the state (and, as the case may be, region) in which such Domain is situated to exercise or discharge that function, and, in relation to any Guarantee of Origin or Support Certificate the Authority duly authorised by the State under the relevant Legislative Certification Scheme to issue that Guarantee of Origin and/or Support Certificate as the case may be. <i>With respect to Finland</i> the Competent Authority shall refer to the party defined in Section 2 point (1) who is designated as the registrar of the registry of guarantees of origin for gas and hydrogen in the Finnish Act on the on Guarantees of Origin for Energy (1050/2021, in Finnish: <i>Laki energian alkuperätakuista</i>) (the TSO designated as the TSO with system responsibility for the natural gas system by the Energy Authority under section 8 of the Natural Gas Market Act). Hence, the Competent Authority in Finland shall currently be Gasgrid Finland Oy. |
| Data Log | The Record of Transactions of the AIB Communication Hub (the Transfer Log); |

| Term | Meaning |
|----------------------------------|---|
| Domain | An area containing Production Devices with respect to which a Member is an Authorised Issuing Authority for the purposes of an EECS Product; |
| Domain Protocol | In connection with a Domain, a document describing the procedures and regulatory provisions regarding GOs for that Domain; |
| EECS Rules | The Principles and Rules of Operation of the European Energy Certificate System; |
| Guarantee of Origin (or "GO") | An electronic document (Certificate) issued by a Competent Authority under the laws of a State as a guarantee of the nature and origin of energy for the purpose of providing proof to a final customer that a given share or quantity of energy, as the case may be: (i) was produced from the energy source to which the guarantee relates; (ii) was produced by the specified technology type to which the guarantee relates; and/or (iii) has, or the Production Device(s) which produced it has (or have) other attributes to which the guarantee relates; |
| HubCom | The AIB document known as "Hub User Compliance Protocol" and subtitled "EECS Rules - Subsidiary Document AIB-PRO-SD03: EECS Registration Databases"; |
| Hub user | A Competent Authority or Registry Operator which uses the Hub for Transactions; |
| Input | An amount of a specific type of energy or material goods consumed by a Production Device using combustion technology in the production of Output; |
| Integrity | The accuracy and consistency of retained and transmitted data, indicated by an absence of any alteration in data during its retention and its transmission from a Sender to a Receiver. Data integrity is maintained through the use of error checking and validation routines; |
| Legislative Certification Scheme | A Certification Scheme implemented pursuant to the law of any EU Member State or a State bound to the EU by a Treaty requiring the mutual recognition of GO's; |
| Output | An amount of energy or material goods yielded by a Production Device and measured by a Measurement Authority; |
| Participant | A Registrant or Account Holder; |
| Production Device | A separately measured device or group of devices that produces an Output; |

| Term | Meaning |
|---------------------------------------|---|
| Registrant | A person in whose name a Production Device is registered from time to time in a Registry for the purposes of the issue of Certificates; |
| Registration Database (or "Registry") | A database operated by a Hub user or a Registry Operator on behalf of a Hub user, comprising: <ul style="list-style-type: none"> (a) Transferables and Cancellation Accounts and the Certificates in those Accounts; (b) Details of Production Devices and information provided in connection with the registration of Production Devices; (c) Details of Certificates which have been transferred out of that Registry; |
| Supervisory Authority | The party which is designated to be responsible for the tasks set forth for the supervisory authority referred to in the Finnish Act on the on Guarantees of Origin for Energy (1050/2021). Hence, the Supervisory Authority shall currently be the Finnish Energy Authority. |
| Transaction | Any communication made and identified as a transfer between Registries regarding GOs to which an electronic message refers. |

Unless otherwise specified, the definitions in the Domain Protocol also apply to this Contract.

2 Purpose and Parties

This document is a Contract (hereinafter 'the Contract') between

- (1) Gasgrid Finland Oy, Business ID 3007894-1, Keilaranta 13-19 B, FI-02150 Espoo, (hereinafter 'Gasgrid Finland' which is a Competent Authority with respect to Finland as described in Section 1 above)
- (2) [Company name], Business ID [xxxx], [Address], (hereinafter the 'Account Holder')

Gasgrid Finland and the Account Holder are hereinafter jointly referred to as 'Parties' and separately as a 'Party'.

The Contract must contain following the attachments:

- An extract from the Trade Register or an equivalent official document and the names of persons authorised to sign this Contract (Power of Attorney, if needed); and
- Contact Information Form (provided by Gasgrid Finland) and the Power of Attorney whereby the company authorizes its employee to act in the registry as a Root User of the Account Holder and as a contact person.

This Contract sets out the terms and conditions upon which Gasgrid Finland is prepared to provide guarantee of origin (hereinafter 'GO') service for gas and hydrogen and Transaction services to the Account Holder via the AIB Communication Hub as contemplated by the rules described in the Domain Protocol and the HubCom Protocol issued by the AIB. The special terms of Gasgrid Finland are set out in section 16.

Where Transactions are performed upon the request of the Account Holder or involving the Account Holder, in accordance with this Contract, the rules described in the Domain Protocol and all applicable technical requirements, and the Parties involved do not claim in due time that the Transaction was in any way erroneous, the Account Holder shall in good faith accept the legal consequences of such Transaction.

3 Compliance with the rules described in the Domain Protocol

Registrants of Production Devices become eligible to receive GOs under a specific Legislative Certification Scheme by contractually committing themselves with the Competent Authority responsible for the relevant Domain (under the Standard Terms and Conditions of Gasgrid Finland) to comply with the rules described in the Domain Protocol. The Registrant will also be subject to applicable legislation. In case of conflict between the Domain Protocol and the terms and conditions the former shall prevail.

4 Obligation to inform

Each party shall contribute to the implementation of this Contract, to the extent that both parties shall provide each other without undue delay all necessary information required by the application of this Contract. If the operation of a Production Device of the Account Holder no longer conforms to the reported information, the Account Holder shall inform Gasgrid Finland immediately about the change.

5 Information systems

Gasgrid Finland issues GOs by using an electronic Registry (Registration Database).

The Account Holder shall arrange, at his own cost, the necessary information technology architecture and interfaces which the Account Holder needs in order to use the Registry. The Account Holder shall be responsible for sufficient and state of the art methods and technologies that safeguard data security and integrity relating to the use of the Registry.

Gasgrid Finland has the right to change the IT prerequisites for the use of the Registry. Gasgrid Finland shall inform the Account Holder in writing at least 30 calendar days prior to the implementation of material changes. In urgent cases changes can be made without prior notice. Gasgrid Finland shall then inform the Account Holder in writing as soon as possible after the change has been made.

Gasgrid Finland shall inform the Account Holder as soon as possible in advance of planned unavailability of the Registry. The Account Holder shall be informed of other unavailability preventing the use of the Registry as soon as possible.

The Account Holder shall respect the technical requirements and rules of conduct described in the Domain Protocol.

Gasgrid Finland has the right to prevent or restrict the use of the Registry service by the Account Holder if there is misuse of the system or if the Account Holder has not fulfilled its contractual obligations under this Contract or the Domain Protocol.

6 Liability

The Account Holder shall at all times act in accordance with the applicable legal provisions and the Domain Protocol of the relevant Domain.

A Hub user or the Competent Authority is not liable for any indirect or consequential damage, such as, but not limited to commercial damage, loss of profit, claims of other third parties any damage, loss, cost or expense incurred by the Account

Holder. Liability of any Hub user or Competent Authority for any damage, loss, cost or expense incurred by the Account Holder in relation to Transactions with GOs or otherwise pertaining to this Contract shall be limited to five thousand (5000) Euros per year. The aforementioned limitations of liability shall not apply to the Hub user's or Competent Authority's gross negligence, wilful misconduct or intentional damage.

If the Account Holder suffers a loss due to gross negligence by Gasgrid Finland, the Account Holder must direct the claim for compensation only against Gasgrid Finland.

If the Account Holder suffers a loss due to gross negligence by a Hub user, Competent Authority, Account Holder or third party, the Account Holder must direct the claim for compensation only against the relevant Hub user, Competent Authority, Account Holder or third party that has caused the damage.

The AIB, other Hub users, other Competent Authorities or their representatives are not liable for the actions of the negligent Hub user, Competent Authority, Account Holder or third party.

The Account Holder has a duty to do everything possible to prevent or limit the extent of the damage. If the Account Holder does not implement adequate measures to prevent or limit the extent of the damage, compensation may be reduced to the same extent.

Claims against the AIB for any damage, loss, cost or expense incurred by the Account Holder and caused by gross negligence by the AIB in relation to Transactions with GOs shall be limited to one thousand (1000) Euros per year per the Account Holder, excluding indirect or consequential damage, such as, but not limited to commercial damage, loss of profit, claims of other third parties. Such limitation will however not apply in case of wilful misconduct or intentional damage. Any performance that is provided in conformity with the AIB's Service Level Agreement cannot be regarded as gross negligence. However, if this paragraph 6 is not applicable or not valid due to applicable legislation, these provisions will be applied insofar allowed by applicable law.

7 Errors

If Gasgrid Finland or the Account Holder discovers an error in issuing, cancelling or processing of a GO, the other party shall be informed as soon as possible.

If there is an error in the course of issuing, cancelling or processing of a GO, an error due to any unauthorised access to or malfunction of a Registry or an error due to actions or non-actions of the Account Holder or Competent Authority, Gasgrid Finland and the Account Holder shall co-operate and use all reasonable endeavours to ensure that no unjust enrichment occurs as a result of the error. If too many GOs have been issued to the Account Holder due to an error, these additional GOs held in the Account Holder's account may be withdrawn or amended by Gasgrid Finland or Supervisory Authority as applicable. Correspondingly, if not enough GOs have been issued due to an error, Gasgrid Finland will issue the missing GOs after it receives the correct information. Notwithstanding the above, if the error is due to the Account Holder, it shall lose its right pertaining to the additional GOs at the latest when the respective GOs would expire.

If it transpires that the data in any GO is inaccurate (whether or not through an act or omission of the Registrant of the originating Production Device), Gasgrid Finland is entitled to – provided that such GOs are, at the time of such withdrawal, in the "Transferable Account" of that Registrant – withdraw those GOs, and other GOs of the same type.

8 Expiry of Gasgrid Finland's services relating to GOs

If the Gasgrid Finland's right to serve as the Competent Authority for GOs in accordance with a Legislative Certification Scheme in the related Domain expires Gasgrid Finland has the right to transfer the Contract to a new Competent Authority.

If there is no new Competent Authority, Gasgrid Finland has the right to terminate the Contract. The Account Holder has no right to receive any refund of the paid contractual fees.

If the Gasgrid Finland no longer acts as the Competent Authority for a Legislative Certification Scheme the Account Holder has the right to retrieve its data.

9 Breach of the Contract

If the Account Holder is in material breach of the Contract, including his obligation to pay the fees to Gasgrid Finland, Gasgrid Finland is entitled to terminate or suspend the execution of this Contract and thus to stop issuing, cancelling or otherwise processing certificates.

10 Force majeure

Neither Party shall be held liable nor be deemed in default under this Contract for any delay or failure in performance of any of their respective obligations if such delay or failure is the result of causes beyond the control and without negligence of such Party. Such causes shall include, without limitation, acts of war, civil war, riots, acts of terrorism, general strikes or lockouts, insurrections, sabotage, embargoes, blockades, acts or failures to act of any governmental or regulatory Authority (whether civil or military, domestic or foreign, national or supranational), communication line failures, power failures, fires, explosions, floods, accidents, epidemics, earthquakes or other natural or man-made disasters, and all occurrences similar to the foregoing (collectively referred to as "Force Majeure").

For the sake of clarity, lack of funds is not force majeure.

The Party affected by an event of Force Majeure, upon giving prompt notice to the other Party, shall be excused from performance hereunder on a day-to-day basis to the extent prevented by Force Majeure and the direct consequences thereof (and the other Party shall likewise be excused from performance of its obligations on a day-to-day basis to the extent that such obligations relate to the performance so prevented), provided that the Party so affected shall use its best efforts to avoid or remove such causes of non-performance and to minimize the consequences thereof and the Parties shall continue performance hereunder with the utmost dispatch whenever such causes are removed.

Without limiting the Parties' obligations arising from the legislation, in the event that the Force Majeure continues to persist for a period exceeding one (1) month, then either Party shall have the right to terminate the Contract by giving twenty (20) business days written notice of termination to the other Party.

11 Amendment of the Contract

In the event that new regulations concerning the European internal market, amendments to GOs regulation and/or other new implementing provisions binding on the registrar of the registry of GOs enter into force during the period of validity of this Contract, Gasgrid Finland shall check what changes may need to be made and update this Contract and the Domain Protocol if necessary.

Amendments to the terms and conditions of this Contract may require approval by the authorities, or the changes may be automatically binding on the Parties by virtue of the law.

Gasgrid Finland shall have the right to make amendments to this Contract and to the Domain Protocol, provided that the changes comply with the aforementioned regulation (regulations concerning the European internal market, amendments to GOs regulation and/or other new implementing provisions binding on the registrar of the registry of GOs) and that the changes are applied equally and non-discriminatorily to all account holders.

Wherever possible, notifications of any amendments to the terms and conditions of this Contract shall be provided at least one (1) months before an amendment takes effect.

Before any amendment to this Contract or the Domain Protocol, Gasgrid Finland shall, if necessary, process the amendments with the Finnish Energy Authority (the Supervisory Authority) which shall evaluate whether or not the amendment is such that needs to be confirmed in advance by an authority.

12 Confidentiality and Intellectual Property

Information of commercial, technical, strategic, financial or otherwise sensitive nature, which is not publicly known and is usually considered as valuable and confidential, whether or not it is explicitly indicated as confidential, shall be treated as confidential information by both Parties. Disclosure of such information requires the prior written consent of the other Party.

For the avoidance of doubt, this confidentiality clause does not prevent Gasgrid Finland to give information to authorities including but not limited to the tax authorities and the police of Finland and the registration's country of the Account Holder, and Europol.

The software that is used to enable the operation of the Registry and the Transactions, together with all included tools, know-how and related intellectual property rights, is and shall remain the exclusive property of Gasgrid Finland, the AIB or their service providers or licensors. The software code, documentation and in general all related know-how must be considered confidential information, even if not explicitly disclosed as such. The Account Holder shall use the services and the related software only for the purposes of this Contract and shall not copy, reproduce, reverse engineer, decompile nor alter, adapt or modify any part of the software or related documentation.

13 Personal Data

As part of the present contract, the Parties may receive and/or collect personal data from staff, employees or any other representative of the Parties. This includes any kind of personal data as understood under EU General Data Protection Regulation n°2016/679 ("GDPR"), as for example contact details (first name, last name, email, birth date, postal address and phone number) or connection details.

The personal data collected will be only used in order to allow the proper execution of the benefits and services offered by the Service Provider to the Client, as described in the present Contract.

The personal data is aimed for managing the Registry. Gasgrid Finland may be considered as the recipient of the data.

Any individual whose personal data are concerned by the present article has a right to obtain transparent information, to oppose, access and rectify any data which is relevant. The exercise of these rights is guaranteed by Gasgrid Finland.

Gasgrid Finland undertakes to ensure the compliance by their staff, and by their subcontractors, to all the legal and regulatory provisions concerning personal data protection to the site of the Account Holder.

In case of contradiction between the dispositions of the present Contract, and a data privacy agreement signed by the Parties, the dispositions of the data privacy agreement shall be regarded as binding.

14 Assignment and Duration of the Contract

14.1 Assignment

The Account Holder may not transfer this Contract and the rights and obligations related thereto to a third party without the prior written approval of Gasgrid Finland. Gasgrid Finland has the right to transfer its rights and obligations, in whole or in part, to a third party or authority to which the responsibilities as the Competent Authority are transferred in whole or in part.

Rights and obligations related to the GO account cannot be transferred to a third party without the prior written consent of Gasgrid Finland. Gasgrid Finland cannot withhold the consent with undue reason.

14.2 Validity of the Contract and termination

This Contract enters into force once signed by both Parties and shall remain valid until further notice.

This Contract replaces any previous contracts concluded between the Parties on the same subject, but the contractual relationship between the Parties shall continue uninterrupted.

Each Party can terminate this contract with one month's written notice.

15 Dispute resolution

Disputes arising out of this Contract shall be settled according to national law, national jurisdiction and national courts.

In case of disputes, the AIB Hub's Data Log may provide evidence as to the data that have been transferred through the Hub and the time thereof and in such case the Account Holder shall accept the statement of the AIB as a binding statement.

Applicable law and settlement of disputes is specified in section 16.10.

16 Special Terms of Gasgrid Finland

16.1 Payments

The Account Holder is obliged to pay the charges invoiced by Gasgrid Finland under this Contract. The payments consist of fixed charges and use-based charges. The Finnish Energy Authority confirms the pricing method and the reasonable operating profit margin. The current price list is published on Gasgrid Finland's website. The current value added tax and any other indirect taxes and fees imposed by the authorities are added to the prices.

The price list is updated annually, and Gasgrid Finland publishes the new price list no later than on 30 November of the year preceding the entry into force. The new price list replaces the previous price list, and the new price list is applied from the beginning of the year following its publication.

Gasgrid Finland shall have the right to change the prices also during the calendar year if the content of the service changes significantly due to a reason beyond the control of Gasgrid Finland or if additional costs arise that could not reasonably be foreseen in connection with the annual price list review. Gasgrid Finland notifies a change in prices no later than one month before the entry into force of the change.

Use-based charges are invoiced four times a year in arrears, by quarter: In April, July, October and January, always the previous three (3) months at a time. Fixed charges are invoiced in April. Separately invoiced work, such as any hourly work, are invoiced with the quarterly invoice following the work. The fixed charges for recently registered new Production

Devices and Account Holders are invoiced with the first possible quarterly invoice. Fixed charges are non-refundable regardless of the possible end of the contract during the year or otherwise.

The payment period for invoices is 14 days from the date of the invoice. There is no separate invoicing surcharge. If the payment has not been paid by the due date, the Account Holder shall pay interest or delay for the due instalment in accordance with the Interest Act (633/1982). A payment reminder fee of EUR 5 is charged for payment reminders. Possible recovery actions start after two payment reminders.

16.2 Act on the openness of government activities, confidential material and secrecy obligations

According to the Finnish Act on the Openness of Government Activities (621/1999), documents of the authorities are public, unless otherwise specifically provided for in the Act or other legislation. Secrecy obligations and deviations from them are provided for in Chapters 6 and 7 of the Act on the Openness of Government Activities. Section 24 of Chapter 6 lists the documents to be kept secret by the authorities, which include documents containing information on private trade secrets. In principle, Gasgrid Finland publishes a list of all registered account holders and the production devices.

The Parties acknowledge that this Contract and the Registry Data may be subject to requests for information. In the event of a request for information concerning this Contract or the Registry Data, the Parties shall be given the opportunity to express their views on the public nature of the Contract or the Registry Data before the authorities decide on the matter.

When taking decisions and otherwise exercising its functions, an authority is obliged to ensure that access to information on the activities of the authority is not restricted without proper justification laid down by law and no more than is necessary, and that those requesting information are treated fairly.

Where consideration is given to the disclosure of information which is secret to the public to a predefined recipient of information, care must be taken, within the limits indicated by the provision containing the presumption of publicity or secrecy, to ensure that the recipient is bound by the obligation of secrecy under this Act and that the information is disclosed to persons other than the authorities and those acting within them only if there is a compelling public reason for disclosing the information.

16.3 Termination of the Contract by the Account Holder

The Account Holder may terminate this Contract as defined in Section 14.2 *Validity of the Contract and termination*. The account of the Account Holder is closed after the notice period and any unused GOs in the account are cancelled. During the notice period, the Account Holder itself may transfer the GOs to the account of another Account Holder.

Documentation and historical data concerning the activities related to the account are kept for six (6) years by Gasgrid Finland.

16.4 Termination of the Contract by Gasgrid Finland

If the Account Holder fails to comply with its obligations described in the Contract and/or in the Domain Protocol confirmed by the Finnish Energy Authority and Association of Issuing Bodies and fails to rectify its breach of contract within a reasonable time specified by Gasgrid Finland, Gasgrid Finland shall have the right to lock the Account Holder's account, in which case it is not possible to make account transactions. The account will be locked until the Account Holder has rectified its breach of contract, and the account can be reactivated at the discretion of Gasgrid Finland. The validity of GOs elapses normally regardless of locking of the account and they can also expire while they are in a locked account.

The following, inter alia, constitute a breach of contract:

- a. The Account Holder repeatedly fails to update its own information or information relating to a production device;

- b. Failure to comply with the obligations described in this Contract;
- c. Other material breach of legislation, the Domain Protocol confirmed by the Finnish Energy Authority and Association of Issuing Bodies, customer instructions, and/or this Contract.

The Gasgrid Finland's rights pertaining to the termination of the Contract as well as to locking of the account are subject to the regulation regarding the GOs.

16.5 Separation of terms

If any term of this Contract is invalid or not enforceable, this shall not affect other terms of this Contract. The Parties undertake to negotiate in good faith the replacement of such a term by a valid and enforceable term. If the Parties fail to reach contract on a replacement term, the validity or enforceability of any other terms of the service contract shall not be affected.

16.6 Notifications

All notifications between the Parties in matters referred to in this Contract must be submitted in accordance with Appendix 3, Contact Information Form.

16.7 Intangible rights

In the relationship between the Parties, both Parties fully own all trademarks, trade names, patents, copyrights and other intellectual property rights related to their own business, and no rights thereto are transferred by this Contract.

16.8 Amendments to the Domain Protocol

Gasgrid Finland reserves the right to amend the Domain Protocol if necessary for justified reasons, such as when legislation and standards change/enter into force.

The Account Holder is obliged to accept any amendments to the Domain Protocol confirmed by the Finnish Energy Authority and Association of Issuing Bodies. Gasgrid Finland undertakes to notify the Account Holder of any amendments to the Domain Protocol and their entry into force at least five (5) weeks before the amendments take effect. Efforts will be made to schedule the entry into force of the amendments at the end of the month. If the Account Holder does not accept the amendments, the Account Holder shall have the right to terminate this Contract in accordance with section 16.3.

16.9 Personal data processing and security

In addition to what is stated in Section 13 *Personal Data*, the Parties agree on following terms relating to personal data and security. The Account Holder is aware of the processing of the personal data provided in connection with joining the Registry of GOs by Gasgrid Finland to the extent that the processing is necessary for the administration and maintenance of the Registry. Further information on the processing of personal data by Gasgrid Finland can be found in Gasgrid Finland's privacy statement, which is available on the Gasgrid Finland website. The controller is Gasgrid Finland, the basis for processing personal data is the legal obligations imposed on Gasgrid Finland by the Act on Guarantees of Origin for Energy (1050/2021), and the processing of personal data is subject to the current Finnish Data Protection Act (1050/2018) and the applicable EU data protection regulations. For example, the Account Holder has the right, upon request, to be informed of the entries made in the personal data Registry of Gasgrid Finland and to rectify the personal data provided. The rights of the Account Holder and other data subjects are described in more detail in the aforementioned privacy statement. Personal data are deleted from the Registry when their processing is no longer necessary under data protection or other legislation.

Gasgrid Finland takes the necessary measures related to security to ensure that the obligations and requirements set for Gasgrid Finland in data protection legislation and the Finnish Act on Information Management in Public Administration (906/2019) are complied with.

16.10 Applicable law and settlement of disputes

This Contract is subject to Finnish law, excluding its conflict of law rules.

The Parties shall primarily seek to settle any disputes relating to this Contract, its validity and/or interpretation through negotiation. If the Parties cannot reach contract by negotiation, disputes arising from the Contract shall be settled by the Helsinki District Court. Appeals against decisions made by Gasgrid Finland are provided for in section 37 of the Act on Guarantees of Origin for Energy. The dispute resolution process is without prejudice to the Account Holder's right to seek a review of a decision on GO in accordance with the Finnish Administrative Procedure Act (434/2003) and the Finnish Administrative Judicial Procedure Act (808/2019). Appeals to the Administrative Court are provided for in the Administrative Judicial Procedure Act.

16.11 Copies and validity of the Contract

This Contract has been drawn up in two (2) identical copies, one for each Party. The Parties have agreed that the Contract can also be signed electronically by using electronic signatures. An electronic signature shall have the same legal effects as a handwritten signature. This Contract will enter into force when both Parties have signed it. The Contract is valid until further notice.

16.12 Appendixes of the Contract

- 1) Domain Protocol of Finland (gas and hydrogen)
- 2) An extract from the Trade Register or an equivalent official document and the names of persons authorised to sign
- 3) Contact Information Form
- 4) A Power of Attorney(s), if necessary

This Contract and its appendices constitute the entire contract entity between the Parties and supersede and replace any oral undertakings or assurances or other contracts or written documents relating to the purpose of this Contract made prior to the signing of this Contract. The signatures are on the next page.
